Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

In response to the final Office Action dated April 23, 2001, please amend the application as follows:

IN THE CLAIMS

Pursuant to 37 C.F.R. § 1.121, an unmarked version of the claims amended by this Response is presented herein and a marked-up version of the amendments is submitted contemporaneously herewith Exhibit A.

Please amend claims 22, 23, 26, 28, 30, 31, 33-36, 39 and 42 as follows in order to overcome the §112 rejections and place the claims in better condition for appeal.

22. (Amended) A stereographic device comprising:
a content support portion, a handheld stereoscopic viewer, and a viewer pivotal chassis;
the content support portion being configured to position and support textual, stereographic, and immersive content;
the content support portion being proportioned to convey, when said content support portion occupies a full field of view of the viewer when said viewer is at a position of focalization, content which is configured to convey four visual fields, including a left
